

FORME

*AI-Powered Personalized Learning
& Certification Platform*

Learning that knows who you are.

*Millions start online courses
and never finish.*

The Problem

90% of online learners never complete a course — not because they can't, but because the platform never cared who they are.

Generic Content

Same course for everyone
Zero adaptation to your level

Meaningless Exams

Tests memory, not
real understanding

No Guidance

Fail — red mark — nothing
No explanation, no next step

Wasted Time & Money

Hours lost on content
that was never right for you

The problem is not the learner. The problem is the platform.

The Solution

BEFORE

Open platform → scroll endlessly → pick randomly
→ fail with no explanation → give up.

WITH FORME

AI knows your level → builds your path → adapts exam
→ explains every mistake → you succeed.

**AI recommends
your perfect path**

**Exams adapt to
YOUR level**

**Every mistake
becomes a lesson**

**Like a friend
who never gives up**

See our POSTER for the full solution overview

Future Outlook

EdTech market growing at 15%+ per year — AI-personalized learning will be a \$50 billion industry by 2030.

1

TODAY

Students & Professionals

Get personalized learning journeys — the right course, right exam, right guidance.

2

YEAR 2

Companies & Organizations

Use ForMe to train and upskill entire teams, replacing costly generic training.

3

YEAR 5

Institutions & Governments

Adopt ForMe at scale to transform national education and close the skills gap.

Those who adopt intelligent learning today will lead tomorrow.

Stop learning for the platform.

Start learning **for yourself.**

- Generic platforms are failing millions of learners every day
- ForMe adapts, guides and walks with every learner
- From first module to final certification — ForMe is there
